EAST LONDON'S ICONIC ART DECO VENUE

FILMING AT TROXY

EAST LONDON'S ICONIC ART DECO VENUE

Once a 1930s cinema that premiered King Kong, now a Grade II-listed cultural landmark Troxy is built for the big screen. From period dramas to music videos, our versatile backdrop adapts with style. With flexible hire options for day, night or multi-day shoots, we're fully film-friendly. No faff, just everything you need for a seamless production:

- Flexible timings
- No sound or load-in restrictions
- Street-level access for effortless loading
- Full blackout capability
- Original features & adaptable spaces offering multiple filming looks, all under one roof
- Quiet, sound-controlled environment
- 3-phase power & rigging throughout
- Ample room for set builds
- Convenient East London location, minutes from Canary Wharf, Shoreditch & the City
- Local accommodation & on-site catering marquee for longer shoots

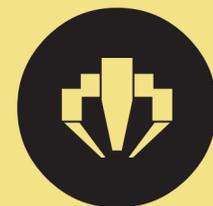

Explore the spaces Troxy has to offer and find the perfect setting for bringing your big-screen vision to life.

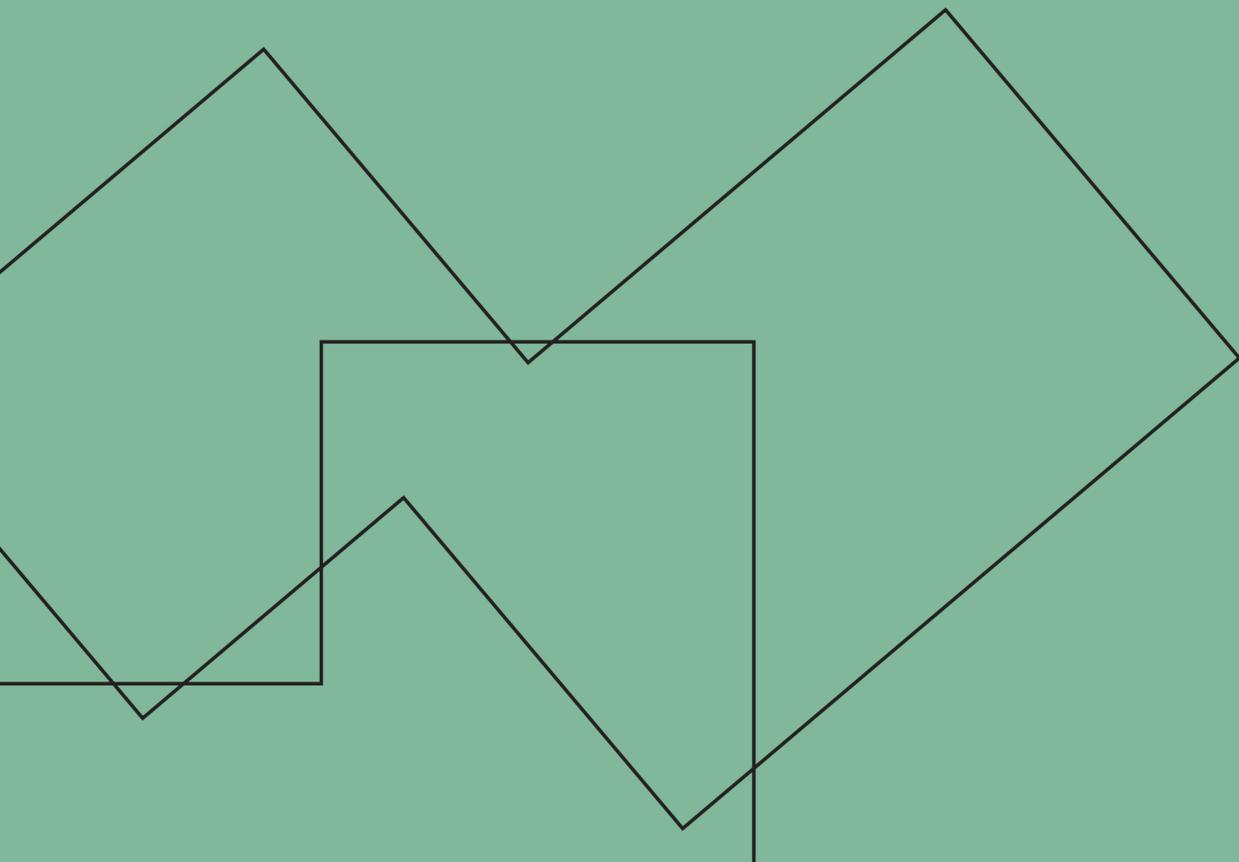

GRAND HALL

Originally a 1930s cinema, the Grand Hall offers an authentic period backdrop with theatre-style balcony seating and a wide stage. Ideal for large-scale productions, performance captures and dramatic wide shots.

FOYER & STAIRCASE

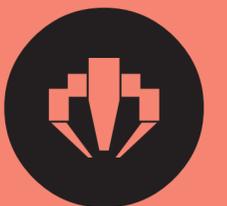

Featuring original marble flooring and sweeping Art Deco staircases, the foyer delivers visual impact from the first frame. Ideal for high-end editorial, entrance or exit shots and stylised set-ups.

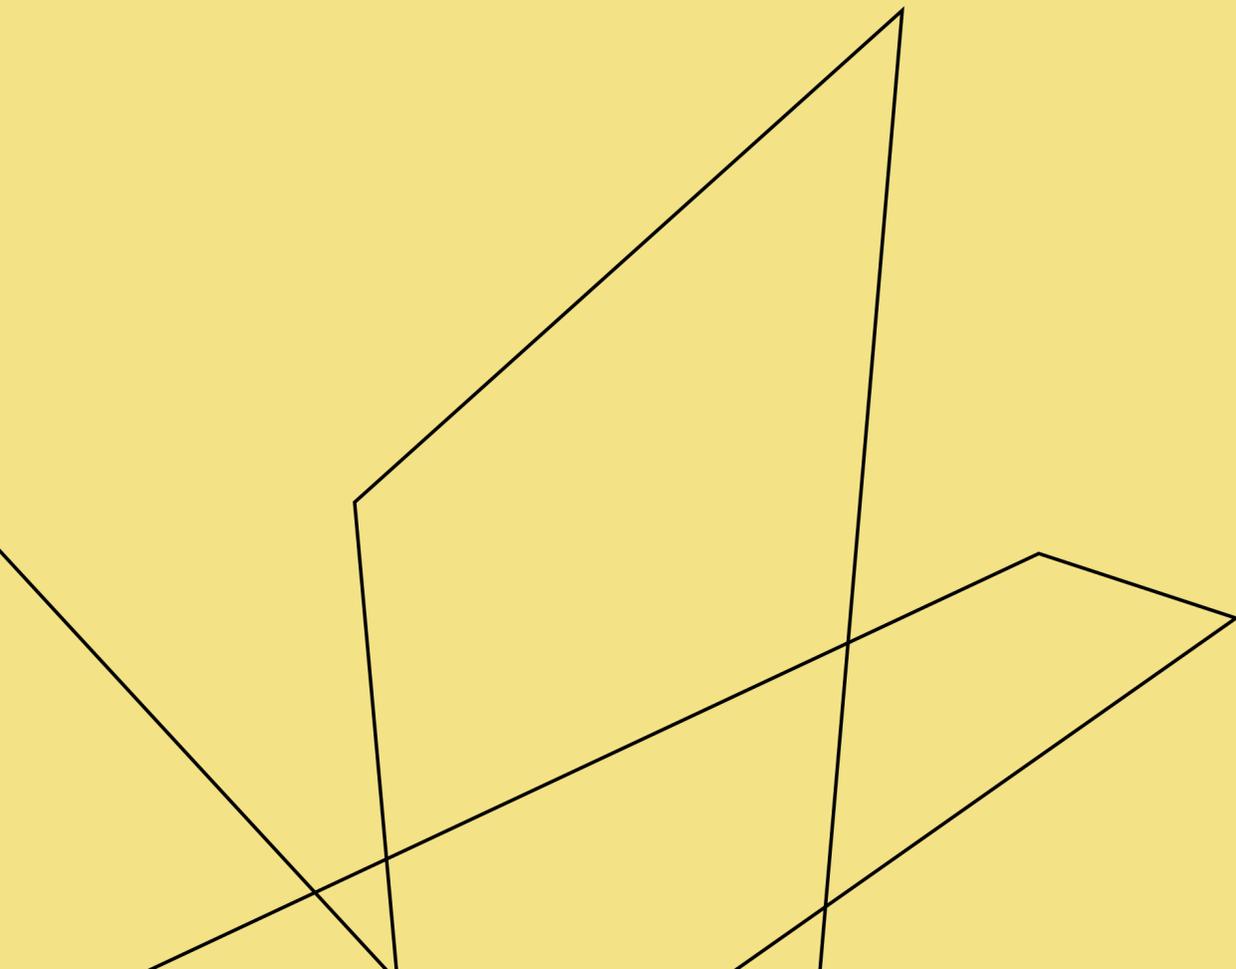

VIP ROOM

A contemporary, adjustable-light space with textured walls and flexible layout. Suitable for atmospheric interviews, close-ups, or scenes requiring an intimate aesthetic.

BACKSTAGE & GREEN ROOMS

Backstage dressing rooms, offices, and corridors work as well on-camera as they do for logistical setups. Our extensive corridors offer architectural detail and visual depth, making them well-suited for transitional scenes, character movement, or stylised hallway shots.

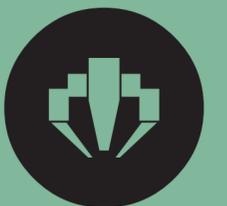

ROOFTOP

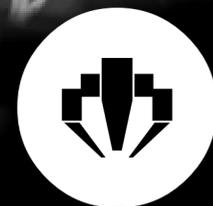

Our rooftop offers commanding views over London's dynamic skyline, from Canary Wharf and The City to local East End landmarks. Ideal for wide aerials, reflective rooftop scenes that need a little East London edge and establishing shots.

Access is weather dependent and crew size may be limited.
